# Preface

“

Our company was established in Kartal, Istanbul in 1987 by seven partners with 10 to 15 years of experience in paint manufacturing and application.

We manufacture construction and industrial paints in accordance with T.S.E and international standards by accepting orders for consumption in collective housing and industrial facilities.

We offer our services to consumers, applicator firms and building contractor firms. The products in our production list are our standard manufacturing. Apart from that, we also manufacture paints that are special to problematic surfaces, contracted construction and industrial uses according to the contractors' or applicator firms' specifications.

Our difference in regards to other manufacturers and distributors is that we create SPECIAL SOLUTIONS to various problems.

As BATI BOYA VE KİMYA SAN. TİC. A.Ş., our aim is to offer our top-quality products and custom tailored solutions to you, our esteemed customers, in an affordable manner.

Feel free to contact us with your questions via phone, fax or e-mail.

**BATI BOYA VE KİMYA SAN. TİC. A.Ş.**  
**Chairman of the Board**  
**ChE. ORHAN GÜRBÜZ**

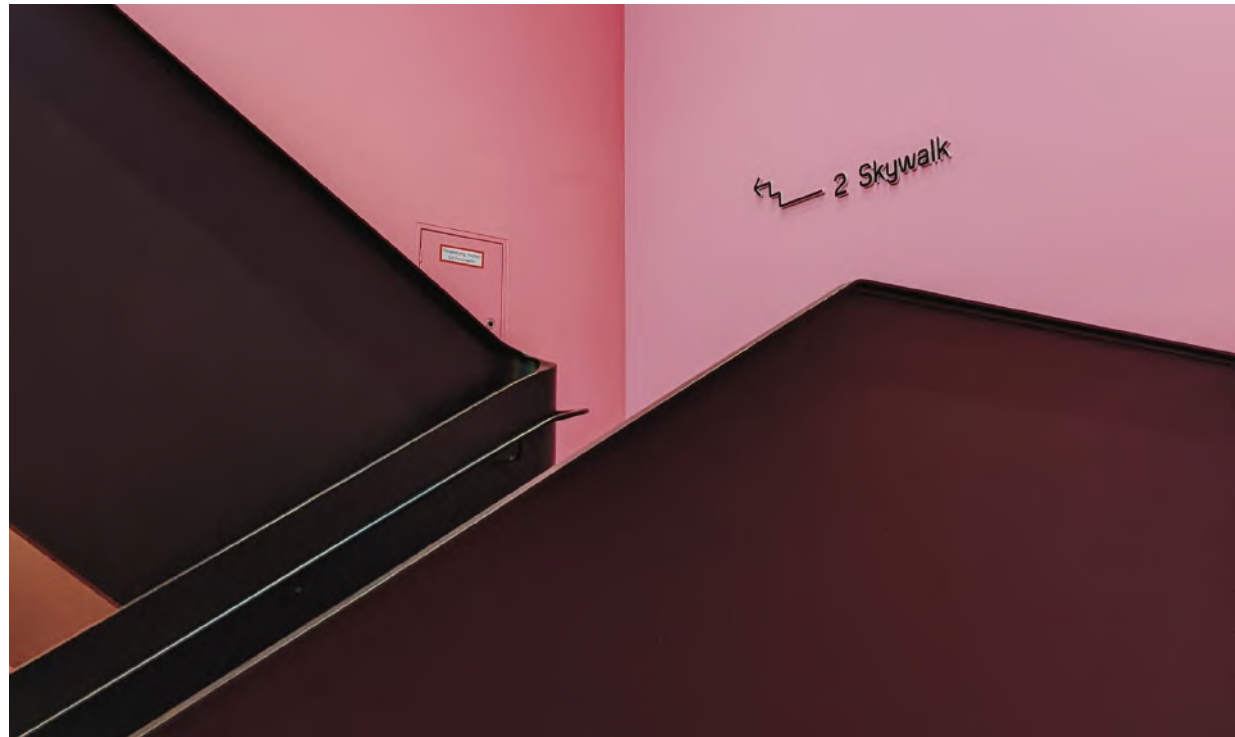

# About Us

<sup>A</sup> Date of Establishment	1987 / Kartal, İstanbul
<sup>B</sup> Trademark	1988
<sup>C</sup> Capacity	4.000 Tons / Year (İTO)
<sup>D</sup> Partnership Structure	Sole Partner since 1998 ChE. Orhan Gürbüz
<sup>E</sup> Manner of Work	Boutique production approach based on customer satisfaction
<sup>F</sup> Subject of Production	Construction and Industrial Paints Epoxy Paints and Coating Materials Industrial Paints Chlorinated Rubber Paints and Auxiliary Materials Synthetic Paints and Auxiliary Materials Water Based Interior and Exterior Paints and Auxiliary Materials

# Water Based Interior Paints and Primers

# Water Based Interior Paints and Primers

## 1 Bati Silky-Matte

Fully cleanable, water based semi-matte satin paint

15lt Plastic Bucket  
20kg Plastic Bucket

## 2 Aquasatin

Fully cleanable, water based matte satin paint

15lt Plastic Bucket  
20kg Plastic Bucket

## 3 Batisil **MGR\*** Plastic Paint \*Mold Growth Resistant

Cleanable, matte, mold growth resistant interior paint with silicone

15lt Plastic Bucket  
20kg Plastic Bucket

## 4 Batisil Plastic Interior Paint with Silicone

Fully cleanable, matte interior paint with silicone

15lt Plastic Bucket  
20kg Plastic Bucket

## 5 Teflon Plastic Paint

Matte plastic paint with Teflon support and high cleaning resistance.

15lt Plastic Bucket  
20kg Plastic Bucket

# Water Based Interior Paints and Primers

---

## 6 Plastic Paint

Fully cleanable, matte plastic paint

15lt Plastic Bucket  
20kg Plastic Bucket

---

## 7 Efor Plastic Paint - Wall

Matte plastic paint for crude walls

15lt Plastic Bucket  
20kg Plastic Bucket

---

## 8 Efor Plastic Paint - Ceiling

Matte plastic paint for raw ceilings

15lt Plastic Bucket  
20kg Plastic Bucket

---

## 9 Acrylic Ceiling Paint

Primer and ceiling paint for crude walls

15lt Plastic Bucket  
17,5kg Plastic Bucket

---

# Water Based Interior Paints and Primers

---

## <sup>10</sup> Sprinkle

Sprayed decorative **patterned** interior coating

20kg Plastic Bucket

---

## <sup>11</sup> Bati Paste

Acrylic interior surface smoothing paste

25kg Plastic Bucket

---

## <sup>12</sup> İzoplas Primer

Primer material for ready-to-use interior paints with satin plaster for crude interior surfaces

15lt Plastic Bucket

---

## <sup>13</sup> Batisil Primer **Mold Growth Resistant**

Primer material for ready-to-use Batisil paints with satin plaster for crude interior surfaces

15lt Plastic Bucket

---

## <sup>14</sup> Aqua Transfer

Primer for transition from synthetic paints to silky-matte and Aquasatin (water based satin)

10kg Plastic Bucket

---

# Water Based Exterior Paints and Primers

# Water Based Exterior Paints and Primers

---

## <sup>1</sup> Batimax Super Exterior Paint

Water based, silky matte, mold growth resistant exterior paint with silicone that has maximum protection and lifetime  
An alternative for solvent-based exterior paints

15lt Plastic Bucket

---

## <sup>2</sup> Batimax **Grained** Super Exterior Paint

Silky matte, mold growth resistant paint with grain and silicone that has maximum protection and lifetime.

20kg Plastic Bucket

---

## <sup>3</sup> Dekortex

Long lasting, breathing, elastic ideal exterior paint for insulation with acrylic binder.

15lt Plastic Bucket  
20kg Plastic Bucket

---

## <sup>4</sup> Bati Flex

Flexible, long-lasting, breathable exterior paint with elastomeric acrylic binder

15lt Plastic Bucket  
20kg Plastic Bucket

---

# Water Based Exterior Paints and Primers

## 5 Silcoat Semi-matte with Silicone **MGR\*** Exterior Paint

Acrylic based, semi-matte, **mold growth resistant** exterior paint with silicone that has water repellent properties.

15lt Plastic Bucket  
20kg Plastic Bucket

## 6 Silcoat **MGR\*** with Silicone Exterior Paint

Acrylic based, water repellent, **mold growth resistant** exterior paint with silicone

15lt Plastic Bucket  
20kg Plastic Bucket

## 7 Yapı Silcoat

Acrylic based water repellent affordable exterior paint with silicone.

15lt Plastic Bucket  
20kg Plastic Bucket

## 8 Matcosil **Grained MGR\*** Coating with Silicone

Acrylic-based, grainy, water repellent, **mold growth resistant** exterior coating with silicone for old and new structures with surface defects.

25kg Plastic Bucket

# Water Based Exterior Paints and Primers

---

## <sup>9</sup> Yapı Exterior

Acrylic based super exterior paint

15lt Plastic Bucket  
20kg Plastic Bucket

---

## <sup>10</sup> Batı Acrylic

Acrylic based long-lasting exterior paint

15lt Plastic Bucket  
20kg Plastic Bucket

---

## <sup>11</sup> Matcotex **Grained**

Acrylic-based grainy exterior coating

25kg Plastic Bucket

---

# Exterior Auxiliary Materials

# Exterior Auxiliary Materials

---

## <sup>1</sup> Tennis Court Paint Red / White / Green/ Blue

Matte tennis court and floor coloring paint with high rubbing and friction resistance and special acrylic binder.

20kg Plastic Bucket

---

## <sup>2</sup> Batı Liquid

Acrylic based, elastic, liquid plastic coating material for any surface requiring water-proofing

20kg Plastic Bucket

---

## <sup>3</sup> Batı Liquid with Silicone

Acrylic based, elastic, liquid plastic coating material with silicone for any surface requiring water-proofing

20kg Plastic Bucket

---

## <sup>4</sup> Batı Mastic

Acrylic based, elastic filling material for capillary surface cracks, under sills and joint gaps.

20kg Plastic Bucket

---

## <sup>5</sup> Acrylic Paste

Surface smoothing and repair paste for exterior

20kg Plastic Bucket

---

# Exterior Auxiliary Materials

6	<b>Acrylic Primer / White</b> Acrylic based colored exterior paint primer	20kg Plastic Bucket
7	<b>Silcoat Primer / Transparent</b> Acrylic based colored exterior paint primer	20kg Plastic Bucket
8	<b>İzolak Primer / Transparent</b> Transparent primer for acrylic based interior and exterior paints	15lt Plastic Bucket
9	<b>Silcoat Primer / Transparent</b> Transparent exterior paint primer with silicone	15lt Plastic Bucket
10	<b>İzolak MGR* Primer / Transparent</b> Mold growth resistant transparent primer with silicone	15lt Plastic Bucket
11	<b>Binder</b> 1:7 thinnable concentrated clear primer for acrylic based exterior and interior paints	15lt Plastic Bucket

# Synthetic Paints

# Synthetic Paints

## <sup>1</sup> Synthetic Lux

Top coat oil paint with high gloss and covering properties

15lt Enamel Bucket

## <sup>2</sup> Synthetic Enamel

Glossy and covering top coat oil paint

15lt Enamel Bucket

## <sup>3</sup> Synthetic Satin

Silk matte, synthetic satin dye with high covering power

15lt Enamel Bucket

## <sup>4</sup> Batı Satin 2000

Silk matte, deodorized synthetic soft satin paint

15lt Enamel Bucket

## <sup>5</sup> Synthetic Matte

Matte synthetic decorative paint with high covering power.

15lt Enamel Bucket

# Synthetic Paints

---

## 6 Batı Lite / Flat

Solvent-based exterior paint ideal for places close to the beach, mountain houses and areas with high heat exchange.

15lt Enamel Bucket

---

## 7 Batı Lite / Grained

Solvent-based, **grained** exterior coating ideal for places near the beach, mountain houses and areas with high heat exchange

20kg Enamel Bucket

---

## 8 Batı Termakor / SN

Solvent based exterior paint ideal for areas with high heat exchange, tunnels, viaducts, mountain houses and places close to the beach

15lt Enamel Bucket

---

# Synthetic Paints

## <sup>9</sup> Wood Protector

Decorative transparent wood protector with natural appearance against mold and pests.

15lt Bucket

## <sup>10</sup> Extra Synthetic Varnish / Transparent

Synthetic, glossy varnish with protective properties

15lt Bucket

## <sup>11</sup> Yatch Varnish / Transparent

Synthetic, glossy varnish with UV protection

15lt Bucket

## <sup>12</sup> Parquet Glass Varnish / Transparent

One component, polyurethane based modified glossy parquet varnish

15lt Bucket

# Synthetic Paints

---

<sup>13</sup> **Sythetic Primer Paint / White**

High opacity primer for synthetic topcoats

20kg Bucket

---

<sup>14</sup> **Antirust** D.White / Gray / Green / Red

Synthetic, anticorrosive anti-rust metal primer

20kg Bucket

---

<sup>15</sup> **Metal Primer** Gray / Green / Red

Anticorrosive primer and semi-matt topcoat metal paint

15lt Tin

---

<sup>16</sup> **Batisilon EMP**

Water repellent impregnating material for surfaces like brick, tile and concrete

15lt Tin

---

<sup>17</sup> **Synthetic Thinner / BD 00**

Partially deodorized thinner

12lt Tin

---

<sup>18</sup> **Synthetic Thinner / BD 01**

Thinner for synthetic paints and varnishes

12lt Tin

---

<sup>19</sup> **Synthetic Thinner / BD 02**

Synthetic Thinner for Bati Lite

12lt Tin

---

# Industrial Paints

# Industrial Paints

---

## <sup>1</sup> Rapid Enamel Lead-free

Glossy paint for trucks, pick-up trucks and agricultural tools and equipment on metal and wooden surfaces suitable for short oil, quick-drying airbrush application.

18kg Enamel Bucket

---

## <sup>2</sup> Rapid Paint Lead-free

Affordable top coat paint with alkyd resin, suitable for airbrush application

18kg Enamel Bucket

---

## <sup>3</sup> Rapid Primer Dock Paint Lead-Free

Primer and topcoat paint with alkyd resin, suitable for airbrush application

18kg Enamel Bucket

---

## <sup>4</sup> CR / Modified Enamel Lead-Free

Chlorine rubber alkyd modified top coat paint resistant to water, salt, acid, alkali and corrosive chemical atmosphere

18kg Enamel Bucket

---

## <sup>5</sup> Industrial Aluminum Lead-Free

Top coat paint for medium oil office tools and equipment and industrial chimneys that require low heat resistance with its anticorrosive protection feature.

15kg Enamel Bucket

---

# Industrial Paints

---

## <sup>6</sup> Aluminum Gilding Paint

120°C heat resistant aluminum primer and topcoat paint with hydrocarbon resin

15lt Tin

---

## <sup>7</sup> Heat Resistance Aluminium Paint / 600°C

Heat resistant paint with silicone resin, developed for industrial facilities

15lt Tin

---

## <sup>8</sup> Road Marking Paint *White / Yellow*

Semi-gloss paint used in road markings and traffic signs, resistant to rain water, salt, acid, alkali and chemical atmosphere.

20kg Enamel Bucket

---

## <sup>9</sup> PAC Road Coating

Polyurethane acrylic two component coating material resistant to rain water, salt, acid, alkali, corrosive chemical atmosphere for road marking and speed sets.

25kg Kit

---

## <sup>10</sup> Border Paint Lead-Free *White / Yellow*

Synthetic resin and solvent based fast curing border paint

25kg Enamel Bucket

---

# Industrial Paints

---

## <sup>11</sup> Rapid Primer **Lead-Free**

Quick-drying primer suitable for short oil spray gun application

20kg Enamel Bucket

---

## <sup>12</sup> Rapid Antirust (Industrial Primer) **Lead-free**

Quick-drying primer suitable for short oil spray gun application

20kg Enamel Bucket

---

## <sup>13</sup> Ext. Leaded Sea Suleen

Anticorrosive primer with synthetic resin and high content of sulfur

20kg Enamel Bucket

---

## <sup>14</sup> Rail Paint

Primer and topcoat for special tar based lift rail systems

15kg Enamel Bucket

---

## <sup>15</sup> Special Thinner / BD 04

Thinner for rapid, industrial, chlorine rubber, road marking paint and solvent-free epoxy resins

12lt Tin

---

## <sup>16</sup> Cleaning Thinner

Special solvent mixture for cleaning purposes

12lt Tin

---

## <sup>17</sup> Cellulosic Thinner / BD 05

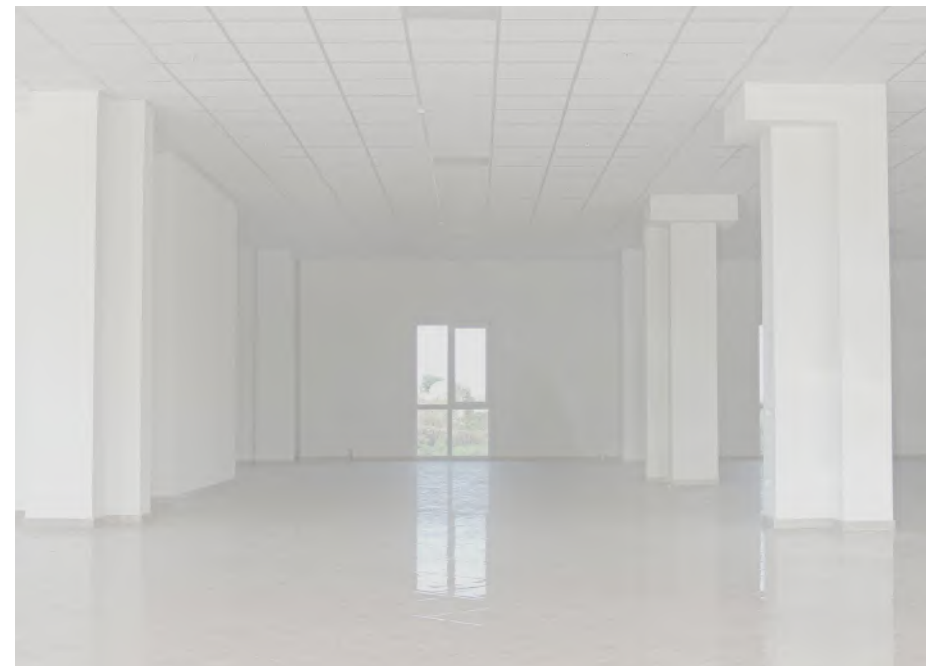

Thinner for cellulosic paint composed of petroleum-derived solvents

12lt Tin

---

# Epoxy Paints and Coating

# Epoxy Paints and Coating

---

## <sup>1</sup> Epoxy Varnish

Two-component epoxy / polyamine, concrete consolidation and impregnation material

12kg Kit

---

## <sup>2</sup> Pitacote Varnish

Colorless primer coating material for solvent-free epoxy varnish, self-leveling and non-slip floor and multilayer applications

4kg Kit

---

## <sup>3</sup> Epoxy Enamel

Two-component epoxy / polyamide, glossy top coat with very good resistance to physical and chemical attacks, especially used in marine equipment and industrial facilities with intense industrial atmosphere.

20kg Kit

---

## <sup>4</sup> Epoxy Aluminum Paint

Two-component top coat paint with an aluminum appearance, especially suitable for steel, aluminum and galvanized surfaces, with high corrosion resistance, and can also be used as a primer before welding.

20kg Kit

---

## <sup>5</sup> Coal Tar Epoxy Hi-Build

Two-component, special tar reinforced top coat paint developed for underground and underwater applications, ideal for waste water systems and sewers.

20kg Kit

---

# Epoxy Paints and Coating

## <sup>6</sup> Polyurethane Acrylic

Two component polyurethane acrylic glossy topcoat paint

20kg Kit

## <sup>7</sup> Polyurethane Enamel

Two component, polyurethane enamel glossy topcoat paint

20kg Kit

## <sup>8</sup> Pitacote Hi-Build Solvent-Free Epoxy

Liquid epoxy resin, solvent-free epoxy coating material  
It is used on floors and walls where chemical and physical attacks are intense, on surfaces that cannot be ventilated and where a thick coating is required in one layer. Usage outdoors is not recommended

4kg Kit

## <sup>9</sup> Pitacote Hi-Build Orange Peel Solvent-Free Epoxy

Liquid epoxy resin, solvent-free epoxy coating material  
It is used on floors where chemical and physical attacks are intense, on surfaces that cannot be ventilated and where a thick coating is required in one layer. Ideal for parking lots, affected by UV rays.

4kg Kit

## <sup>10</sup> Pitacote Self Leveling

Three-component coating that can be used successfully on every surface requiring chemical and abrasion resistance such as businesses, hangars, repair and maintenance units that suffer heavy loads due to intense physical and chemical attacks

15kg Kit

# Epoxy Paints and Coating

## <sup>11</sup> Pitacote Hi-Build **Food**

Liquid epoxy resin is developed for hospitals, food producing factories, drinking water tanks and pipeline systems where **hygiene** is required. Solvent free and in compliance with food regulations.

4kg Kit

## <sup>12</sup> Pitacote Coal Tar

Two-component, reinforced with special tar, developed for underground and underwater applications, **solvent-free** and ideal for pipeline systems where good corrosion resistance is required, penstock pipes, dams and shipyards, water treatment plants

10kg Kit

## <sup>13</sup> Pitacote Epomastic **Surface Tolerant**

Surface tolerant, coating material with liquid epoxy resin. Developed for rusty surfaces that cannot be cleaned

4kg Kit

## <sup>14</sup> Epoxy Mortar

It is recommended to be used in enterprises that suffer heavy loads due to intense mechanical and chemical attacks, and in facilities that require a floor covering of 0.5 cm and above. Epoxy or polyurethane should be applied on it.

20kg Kit

## <sup>15</sup> Epoxy Self Leveling Mortar

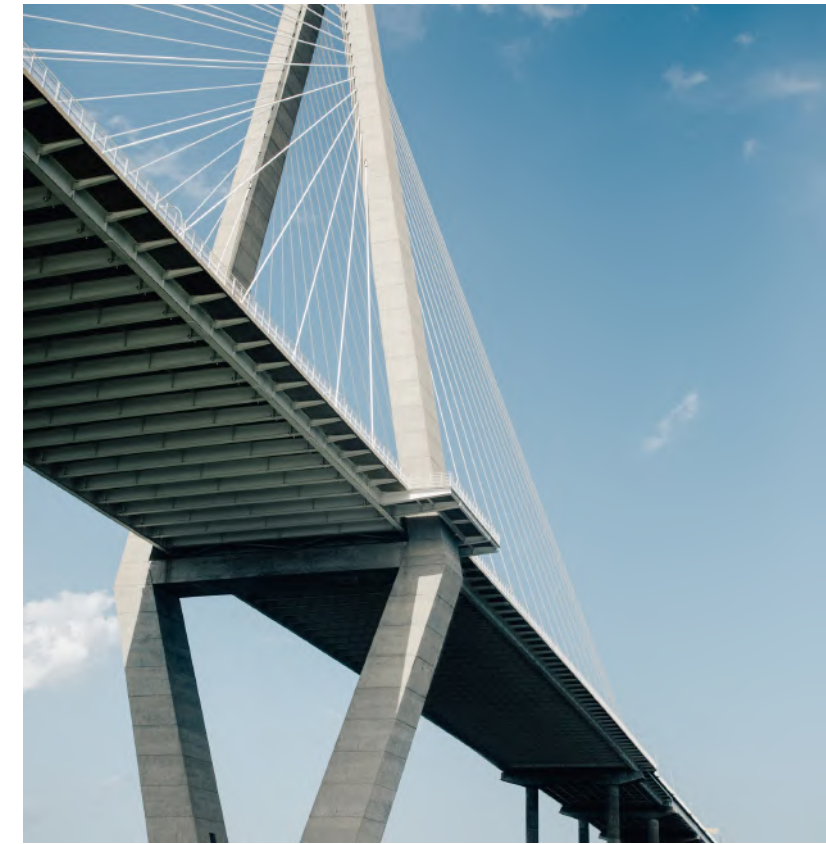

Three-component coating that can be used in any surface requiring chemical and abrasion resistance such as businesses, hangars, repair and maintenance units that suffer heavy loads due to intense physical and chemical attacks

15kg Kit

# Epoxy Primers and Auxiliary Material

# Epoxy Primers and Auxiliary Material

- 
- Epoxy Concrete Primer** Transparent  
Two-component, anti-dusting, concrete-strengthening, adhesion-purpose concrete primer 15kg Kit

---

  - Pitacote (Epoxy) Prime Coat** Transparent  
Epoxy polyamide, two-component first primer for **self leveling**, **non-slip floor** and **multilayer** applications 13,5kg Kit

---

  - Pitacote (Epoxy) Adhesion Primer** Transparent  
First primer for epoxy polyamide, two-component surfaces in which adhesion could be problematic. 13,5kg Kit

---

  - Pitacote (Epoxy) Moisture Barrier Primer** Transparent  
Primer material for epoxy polyamide, two-component, **self leveling**, **non-slip floors** and **multilayer** applications where humidity is higher. 13,5kg Kit

# Epoxy Primers and Auxiliary Material

---

## 5 Epoxy Metal Primer Red

Epoxy polyamide, two-component, anticorrosive metal primer

20kg Kit

---

## 6 Epoxy Phosphate Primer D.White

Epoxy polyamide, two-component, anticorrosive, zinc phosphate reinforced, ideal primer for metal galvanized and aluminum surfaces.

20kg Kit

---

## 7 Epoxy Antirust Zinc Chromate

Epoxy polyamide, two-component, anticorrosive zinc chromate and phosphate reinforced metal primer

20kg Kit

---

## 8 Zinc Rich Epoxy Primer

Epoxy polyamide, two-component, anticorrosive, pure zinc powder enhanced primer especially developed for underground cathodic protection applications.

20kg Kit

---

## 9 Fiberglass Primer

Epoxy resin, antifouling adhesion primer for fiberglass boats before painting. Should be used as single coating

20kg Kit

---

## 10 Epomastik 07 Surface Tolerant Paint

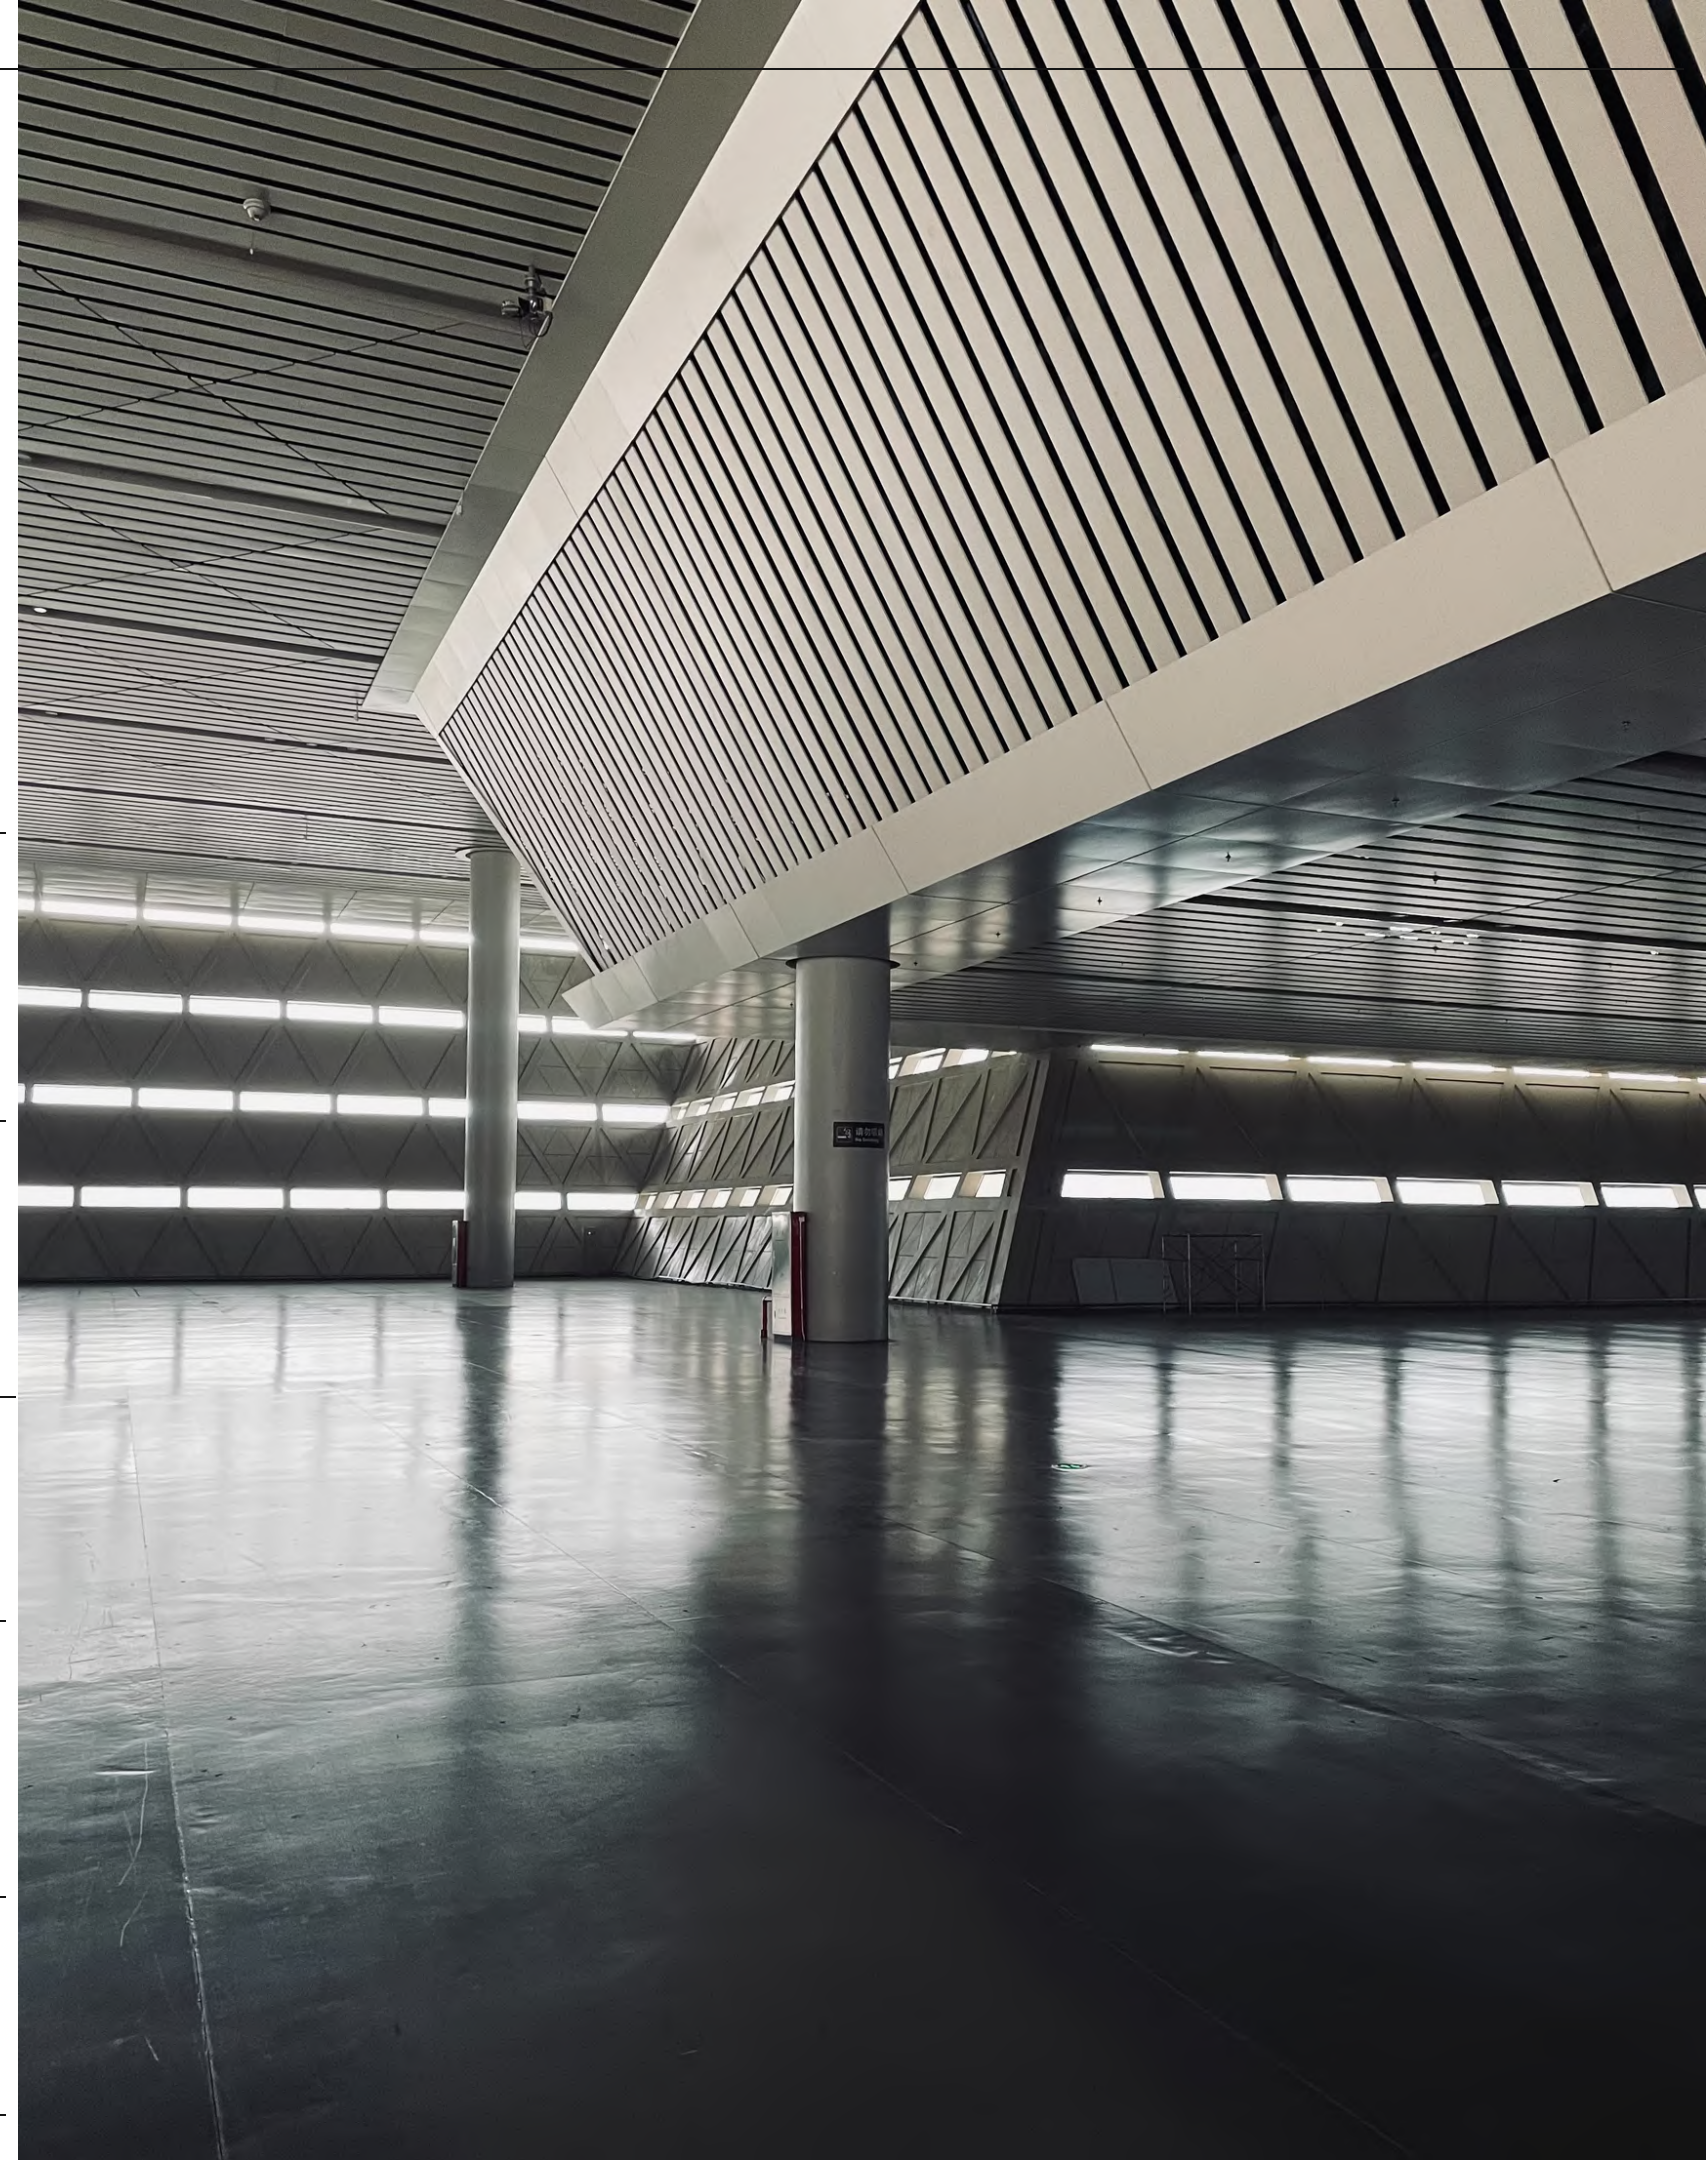

Two-component metal primer with anti-corrosive properties for **uncleanable surfaces**

20kg Kit

---

# Epoxy Primers and Auxiliary Material

## <sup>11</sup> Bati BSF/EP Undercoat

Intermediate layer material developed to prepare two-component epoxy-polyamide surfaces for top coat paint and to provide the desired dry film thickness.

20kg Kit

## <sup>12</sup> **New** Bati BSF/PU Undercoat

Two component insulation material **effective against hairline cracks** for flexible, roof and floor surface applications.

5kg Kit

## <sup>13</sup> Epoxy Repair Paste

Surface filling and repair material prepared in solvent-free epoxy content

5kg Kit

## <sup>14</sup> Bati HD SLK 100 / 300 / 500 / 700

Ready-to-use filling material for epoxy mortar, self-leveling mortar and non-slip floor applications

10kg Plastic Bag

## <sup>15</sup> Special Thinner (Epoxy Thinner) / BD 03

Thinner of solvent-based epoxy paints and primers consisting of petroleum-derived solvents

15kg Tin
